SPARKLET ENGINEERS MIDDLE EAST FZE

Established In 2013

Who We Are

At SEME, we are recognized for our reliability, quality, and technical excellence across the Middle East & North Africa and South Asia. We specialize in delivering high-performance products and services to the Oil & Gas sector, consistently meeting the evolving demands of the industry.

Our focus is on empowering the Energy and Petroleum (E&P) sector with agile, end-to-end project solutions — accelerating the journey from FEED to Revenue through rapid execution, innovative approaches and an uncompromising commitment to client success.

What We Offer

Process Package Solutions and Complete EPF

For various Oil and Gas Applications, including:

- ✓ Oil Processing
- ✓ Gas treating
- ✓ Desalting & Dehydration Systems
- ✓ Skid-Mounted Process Equipment
- ✓ Chemical Injection

Design & Engineering

- ✓ End-to-end customized design, 3D modeling and process simulation.

Turnkey EPC Services

- ✓ Full-spectrum Engineering, Procurement & Commissioning for upstream and midstream facilities.

Field Execution & Support

- ✓ On-Site Erection & Commissioning
- ✓ Maintenance & Startup Assistance

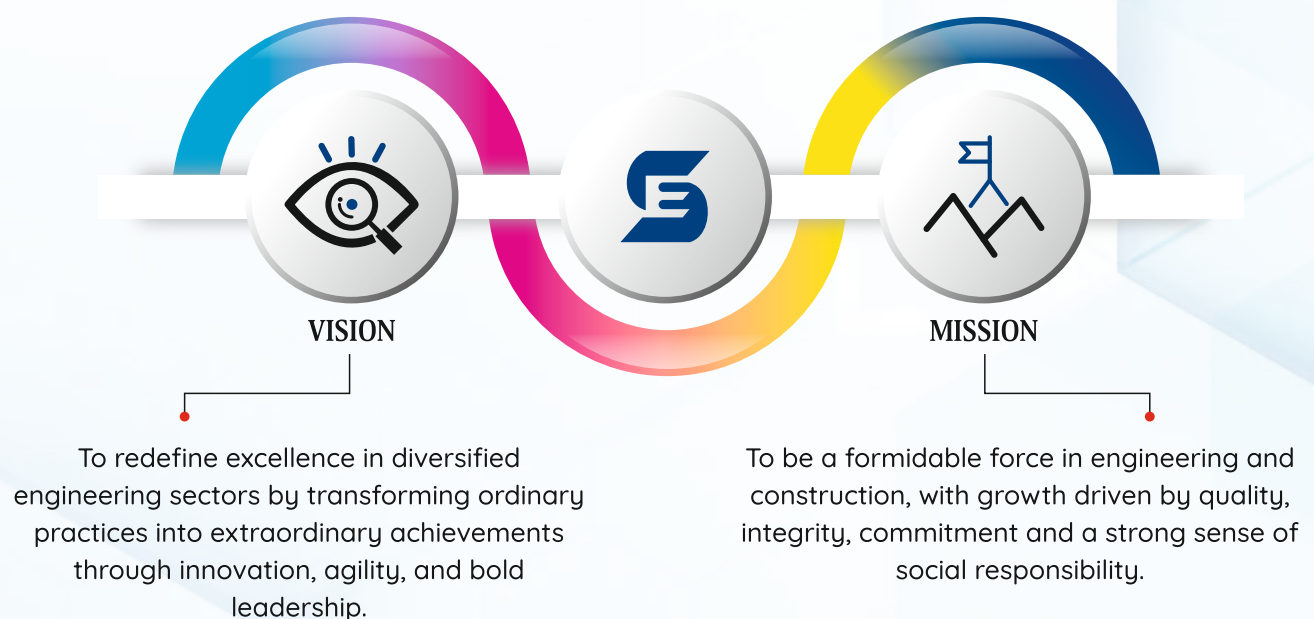

Our Presence

- ✓ Established Fabrication Facilities in the Middle East - India
- ✓ Active presence in India, Middle East, and North Africa

Our Strategic Partner

- ✓ TECHWYSH – Our trusted manufacturing base partner in India, supporting high-quality fabrication, project execution and O&M Services

Quality Policy

At SEME, we are committed to delivering high-quality products, services and engineering solutions that meet or exceed customer expectations in the oilfield equipment, EPC and industrial services sectors.

We strive to:

- ✓ Continuously improve our processes, products and systems through innovation and performance monitoring.
- ✓ Comply with all applicable statutory, regulatory and customer requirements.
- ✓ Foster a quality-focused culture by empowering and training our employees.
- ✓ Build long-term partnerships based on trust, reliability, and consistent quality.

Our goal is to ensure complete customer satisfaction, enhance operational efficiency, and maintain a strong reputation for excellence in everything we do.

Current Products & Services

KEY BUSINESS LINE

- EARLY PRODUCTION FACILITIES
- CENTRAL PROCESSING FACILITIES
- CRUDE OIL STABILIZATION UNITS
- ELECTROSTATIC DESALTER & DEHYDRATORS
- PRODUCED WATER TREATMENT UNITS
- GAS SWEETENING & DEHYDRATION UNITS
- GAS COMPRESSION PACKAGES

PRODUCTS & SERVICES

- PROCESS PACKAGE EQUIPMENT SOLUTIONS
- DESIGN & ENGINEERING SERVICES
- ON-SITE ERECTION & COMMISSIONING
- ENGINEERING, PROCUREMENT & CONSTRUCTION (EPC)

Operations

FABRICATION FACILITIES

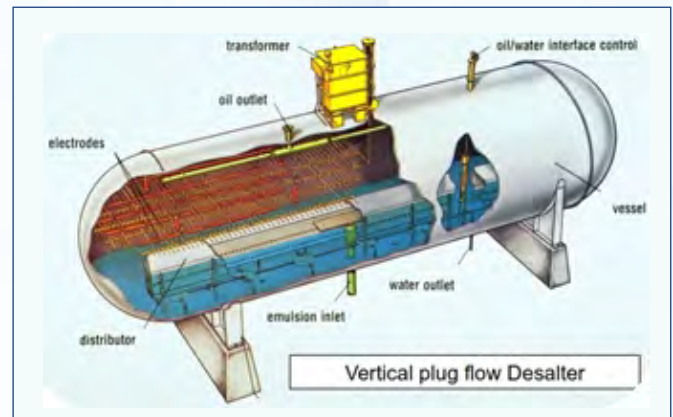

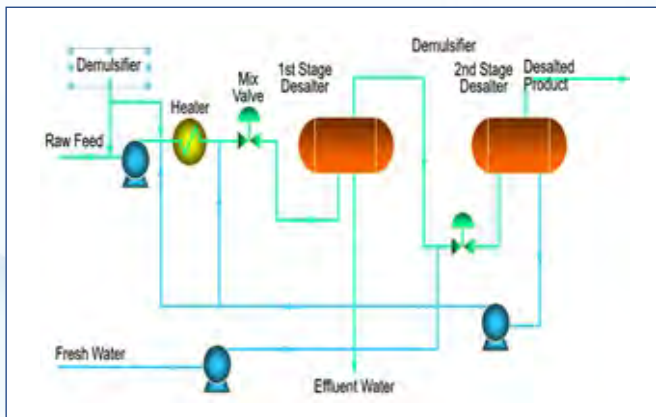

Desalters & Dehydrators

DESALTERS & DEHYDRATORS:

Due to issues of water and salt in many oil producing wells there is a sizable reasonable demand for Dehydrators and Desalters. Traditionally Desalters are always built to specification with lead times of 8 to 10 months. SEME with its technology partners have now developed a standard sizing of Desalters which could meet at least 70% of the regional requirements. The concept is based on Building Desalters as a Stock Item and thus reducing the delivery lead time from current 8 months to less than 4 months.

A TYPICAL TWO-STAGE ELECTROSTATIC DESALTING SYSTEM

GAS SWEETENING UNIT

The market for GAS SWEETENING has fast gained importance. SEME with its associated partners has executed projects upto 30 MMSCFD GSU with capabilities and having designed packages to upto 40 to 120 MMSCFD

EFFLUENT WATER TREATMENT UNIT (EWTU):

The Effluent Water Treatment Unit (EWTU) is designed to treat wastewater generated from various oil & gas processing units, ensuring compliance with environmental regulations before disposal into Effluent Disposal Wells.

Primary Treatment:

- ✓ Oil-Water Degassing Package
- ✓ Gravity Settling Tank Package

Secondary Treatment:

- ✓ Induced Gas Flotation (IGF) Package
- ✓ Sour Water Stripping Package

Tertiary Treatment:

- ✓ Nut Shell Filter / Backwash Filter Package

JPF-3

SEME in alliance with its partners can now offer complete construction services in the region. The process of registration with end users is underway.
